1. Instructions for the W2CCA Candidate

To enroll and benefit from the W2CCA program, each aspiring candidate must submit a formal application to the FITSI Foundation. The FITSI Foundation requires the following:

1. Documentation of a candidate's personal information.
2. Documentation of a candidate's injuries that meet the eligibility criteria of the W2CCA program.
3. Two endorsements from professional colleagues that attest to the character and attitude of the candidate to participate in the W2CCA program.
4. A formal attestation by the candidate that the information provided in the application is true and correct.

This document must be completed electronically and emailed to the FITSI Foundation. Candidates must complete sections 3, 4 and 6 of this application in their entirety. Additionally, the endorsement forms identified in section 5 must be completed and signed by the endorser and included at the time of application submission.

If the application is not completed in full and returned in total, the application will be denied and the candidate will be notified via email.

After this application has been completed and approved by the W2CCA program, an IT aptitude exam will be scheduled and completed prior to the start of training.

2. W2CCA Admission Criteria

Acceptance into the W2CCA program requires each candidate meet all of following conditions.

1. Be transitioning (i.e., submitted paperwork to begin the discharge process) or have transitioned from military service
2. Suffer from one or more of the *combat related injuries or combat related illnesses* listed in paragraph 3 below incurred while deployed in overseas contingency operations since September 11, 2001
3. Have received a physical disability rating of 30% or greater due to at least one of the specific conditions listed below, or have received a combined rating equal to or greater than 50% for any other combat or combat related condition. If a disability rating is pending, a doctor's signed certification of at least one of the following conditions can be submitted in lieu of a VA disability rating.
 - Blindness/severe loss of vision
 - Deafness/severe hearing loss
 - Fatal/incurable disease
 - Loss of limb
 - Permanent disfigurement
 - Post-traumatic stress disorder (PTSD)
 - Severe burns
 - Spinal cord injury/severe paralysis
 - Traumatic brain injury (TBI)
 - Any other condition requiring extensive hospitalizations or multiple surgeries
 - Fatal/incurable disease with limited life expectancy by the applicant
4. Passing of an IT aptitude exam by the applicant (scheduled after this application has been accepted by the W2CCA program).

Please Note: Should a service member be unable to participate due to the severity of his/her injuries, the same support will be extended to a member of his/her immediate family who may be seeking training. If support is provided to a family member and the service member becomes able to participate, admission will then also be extended to him/her. Widows and widowers of service members who have paid the ultimate sacrifice during overseas contingency operations since September 11, 2001 are also eligible for admission into the W2CCA program.

Please note: Admission to the W2CCA program requires all of the criteria be met by the service member. Applications that do not meet the above criteria will be denied.
